Brandstofpryse, voedselsekerheid én werkloosheid

The city winning the race
to get off the grid

Dr. Willie gesels
met Richard Shumi

SA's smaller airports are
recovering quicker

In vandeeweek se nuusbrieff

In die jongste MyAHi-nuusbrieff vertel dr. Willie Cilliers jou onder meer oor die verwagte stygende brandstofpryse sowel as die kritiese impak daarvan op die ekonomie.

Cilliers gesels verder met die AHi se mededirekteur, Richard Shumi, tydens vandeeweek se radio-sakegesprek op EdenFM.

Terwyl brandstofpryse na verwagting met 16% in Junie sal styg, is daar egter 'n debat wat vooraf tussen Parlementslede sal plaasvind.

Later in die nuusbrieff vertel ons jou van die departement van binnelandse sake se splinternuwe strategie wat beteken dat lang toue vermy kan word deur hul takke in winkelsentrums te besoek.

Ons vertel jou verder oor die top nege miljoenêr-warpunte en die stad wat die resies wen om eerste beurtkrag vry te spring.

Ons vertel jou verder oor die impak van die oorlog in die Oekraïne in Suid-Afrika en hoe dit jǒu sak sal

raak.

Laastens deel ons lekker leesstof met jou, en laastens - maar nie die minste nie, bied ons nuus en hoogtepunte uit ons sake-organisasies en moedig sakeleiers aan om op ons splinternuwe AHi-platform aan te teken wat 'n magdom sake-inligting bevat.

Lees dit, en meer, in ons propvol nuusbrieff hier onder.

Ekonomie, stygende brandstof- en voedselpryse:

Dr. Willie Cilliers gesels met Richard Shumi, mede-direkteur van die AHi.

Die ekonomie, die stygende brandstofpryse en voedselpryse, asook 'n duurder lewenskoste.

Dit is van die onderwerpe waaroor dr. Willie Cilliers, uitvoerende direkteur van die AHi, in die jongste radio-gesprek op Eden FM gesels.

“Alles dui daarop dat die prys van petrol en diesel tussen R3 en R4 per liter sal styg,” sê dr. Willie Cilliers. “Dit is 'n geweldige styging en ons weet dit loop hand-aan-hand met vervoerkostes en op die ou einde lewenskostes wat styg. Op die uit einde sal die geld van die gebruiker verhaal word, indien die vervoerkostes om produkte by die eindverbruiker te kry, styg.”

In die onderhoud praat dr. Willie met Richard oor die hoe gemeenskappe kan hande vat om dié probleme te hanteer. Hulle praat veral oor voedselsekerheid, hongersnood en die AHi se Red 10-dorpeprojek.

Parliament to debate SA's record petrol price hikes

Parliament will hold a debate on South Africa's record petrol price increases following an official request by the opposition Democratic Alliance.

While a date and time for the debate have not been set, the discussions are set to focus on the 1 June petrol price hike which could see the cost of petrol increase by close to R4/litre.

DA leader John Steenhuisen has warned that the government will need to intervene ahead of the increase or risk further civil unrest.

"If we do not stop this fuel price increase, millions more people will fall into poverty, children will be stunted, people will starve, businesses will go bankrupt, jobs will be lost and mass riots could be sparked, such as in Sri Lanka last month in response to fuel price hikes there.

New Home Affairs system to be introduced in SA

home affairs

Department:
Home Affairs
REPUBLIC OF SOUTH AFRICA

Home Affairs minister Aaron Motsoaledi has announced a complete revamp of his department's systems in a move to cut down on long queues.

Presenting his departmental budget speech on Tuesday (24 May), Motsoaledi said that much of the work and resources are focused on the 'original sin' of his department – system downtime.

"It is painful and generates a lot of anger to visit a Home Affairs office very early in the morning and just stand there and wait for hours on end because all systems are down. It is very frustrating to say the least.

South Africa faces 16% petrol price jump in June

South Africans face record high petrol prices in June as a subsidy to help motorists counter the impact of high crude costs exacerbated by Russia's invasion of Ukraine comes to an end.

With a weighting of almost 5% in South Africa's inflation basket, the expected jump in pump costs is likely to push the gauge above the central bank's target range and spur price hikes across the economy. The government reduced the levy on fuel by 40% in April and May, helping to keep a lid on prices.

Nine towns named as SA's 'millionaire hot-spots'

High-net-worth individuals seem to be flocking to a few towns in South Africa. While some areas are quite obviously those that the richer tend to lean towards, others aren't as obvious.

AFRICA WEALTH REPORT 2022

The Africa Wealth Report, by New World Health, for 2022 dished out some data about where the richer few of SA are spending their days.

HERMANUS, WESTERN CAPE:

Hermanus is, according to the report, the fastest growing South African town for high-net-worth individuals. A large number of wealthy Cape Town, Pretoria and Johannesburg residents have relocated to Hermanus over the past ten years.

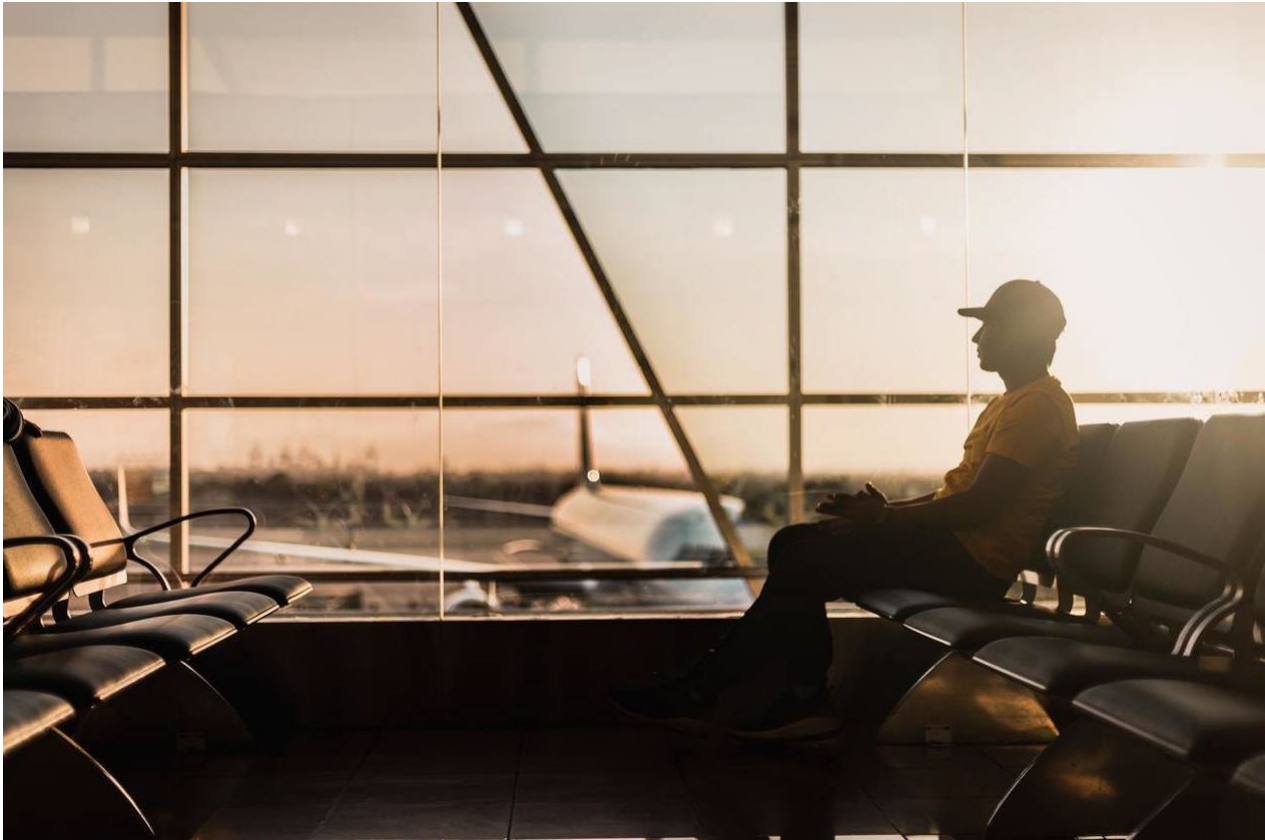

The report noted that the Western Cape town is probably one of the safest in SA. Eastcliff, Voelklip, Kwaiwater and Onrus and Fernkloof Estate are some of the affluent parts of Hermanus.

The other millionaire hot-spots are: Paarl, Umhlanga, Ballito, Plettenberg Bay, Knysna, George, Wilderness and Nature's Valley.

SA's smaller airports are recovering quicker

South Africa's regional airports are recovering quicker than their bigger counterparts as domestic travellers return to the skies while the lingering effects of the Covid-19 pandemic subdue international arrivals.

Travel to and from South Africa has been slow to recover after two years of disrupted flight schedules, border closures, and strict entry rules brought about by the Covid-19 pandemic. South Africa's international airports have been hardest hit, although some are recovering at a quicker rate than others.

This city is winning the race to get off Eskom's grid

Ekurhuleni, the industrial hub of more than three million people to the east of Johannesburg, may have a head start in the race between South African cities to buy their own power to alleviate crippling outages imposed by the national utility.

A program to procure as much as 700 megawatts of electricity that began in 2016 is coming to fruition, with one funder saying a project to build a 41-megawatt solar plant at a cost of about R1 billion (\$64 million) will begin by the end of this year.

Your montly dose of agri news

From the desk of the executive director: Christo van der Rheede

Gedurende die 1960's het die alombekende digter N.P. van Wyk Louw'n aantal tekste gepubliseer wat hom deel gemaak het van 'n wêreldwye beweging om groter bewustheid oor die belangrikheid van die omgewing onder die aandag van beleidmakers en die publiek te weeg te bring. In sy skeppende skryfwerk getiteld 'Berei in die woestyn,' spreek hy sy kommer uit oor die verval van die omgewing. Hierdie pleidooi word soos volg in die teks verwoord:

'...dat ons dié ewewig soek (soos die naald die magnetiese pool) en ons aarde óm gaan skep na die ewebeeld van die Tuin.'

In hierdie teks beskuldig die 'Profeet die Heerser en sy volk op hul feesdag, dat hulle gesondig het en toegelaat het dat die natuur agteruitgaan, sodat net 'n verwoeste landskap oorgebly het. Dreigende hongersnood en dors is die Heerser en sy volk se voorland. In kort kom dit daarop neer dat die mens die natuur verwaarloos en dat hy dié verwaarlosing ter wille van sy voortbestaan moet omkeer en moet probeer om die land weer in sy paradyslike staat te herstel. Die opdrag is helder en duidelik '... na die 'ewebeeld van die Tuin.'

The AHi recently launched a brand-new digital networking platform, called MyAHi.

The AHi would like to encourage our newsletter subscribers to sign up to our MyAHi platform for a range of business support.

The idea behind the platform is to create a space for business owners and entrepreneurs to gain the necessary skills and support to be sustainable.

We also have an option for businesses to connect with each other, give access to networking opportunities, allow subscribers to get advice from our team of experts and update subscribers on the latest business information.

We've made it easy for entrepreneurs from across the economic spectrum to sign up to this mobile and user friendly platform.

Our platform has also been featured on [IOL](#).

Nuus uit ons sake-organisasies

CBI Ceres

Gala-aand saam met André de Ruyter oor elektrisiteitsvoorsiening

Die doel van die vergadering was om die tekort aan elektrisiteitvoorsiening in die Witzenbergstreek aan te spreek. CBI was gelukkig om Mnr André de Ruyter, Hoof Uitvoerende Beamppte van Eskom, te kry om as spreker op te tree.

In reaksie op vrae vanuit die gehoor aan Mnr de Ruyter, het hy CBI versoek om sekere statistieke rakende uitbreiding, ontwikkelings-geleenthede, wat ook werkseleentheid in die Witzenberg kon bevorder, aan hom te voorsien. Baie dankie aan Danelle wat dit namens CBI verskaf het.

Clanwilliam Sakekamer

Clanwilliam Sakekamer het op Dinsdag, 17 Mei by Build-it Clanwilliam 'n ledebesoek afgelê. Renier Zeelie en sy kollegas het ons meer vertel van wat hulle alles bied en het ons rondgewys in die winkel. Die Clanwilliam tak is onlangs oorgeverf en met nuwe bemarkingsmateriaal vertoon die gebou tog te mooi - alles ter viering van hulle 5de jaar in besigheid. Die besoekers en personeel het gesmul aan 'n southappie en het 'n versnapering geniet, terwyl daar hard gesoek is na 2 x geskenkbewyse en 5 x horlosies wat tussen die rakke weggesteek was. Sodoende kon ons almal die winkel beter leer ken. Baie dankie vir julle tyd en moeite, ons wens julle nog vele jare van suksesvolle besigheid in Clanwilliam. Ons is trots om plaaslik te kan ondersteun.
